

Dig Vijay Kumar Yarlagadda (57):

In this Ionic app, one of the features of our project 'Saver n' Saviour', searching for a location and sharing it is implemented. Google Places API is used search for nearby places and Cordova plugin "Social Sharing" is used to share to various platforms.

(<http://ngcordova.com/docs/plugins/socialSharing/>)

Type a letter or two, we will  
search places for you

This page has 10 external Javascript scripts. Try combining them into one.  
 This page has 3 external stylesheets. Try combining them into one.

Decreasing the number of components on a page reduces the number of HTTP requests required to render the page, resulting in faster page loads. Some ways to reduce the number of components include: combine files, combine multiple scripts into one script, combine multiple CSS files into one style sheet, and use CSS Sprites and image maps.
